TOP 5 WAYS TO BE A LEADER

One of my favorite sayings is; “No one needs a boss”. This is an absolutely true statement 100% of the time. You want to be a Leader and there are some basic steps you can take that will put you in front of others who feel they have it figured out. In order to be a Leader you have to be there to serve others, not the other way around. You have to show respect for your followers and those you are serving to be seen as a Leader.

1. **Serve Others.** Leadership is about serving others, removing barriers and helping them be successful.
2. **Ask questions.** Never make statements, ask questions and actually listen for the answer.
3. **Let the experts do what they do best.** Don't assume you know best, better or all, let those on your Team execute.
4. **Give credit to the Team.** Make sure all credit points to the Team, stand behind them especially during times of receiving praise.
5. **Ultimately no one sees you, they see the Team.** A true leader is near invisible, the Team should be seen as a well-oiled machine operating as a unit.
